

# Raspberry Pi 3 SD Card Replacement

In this guide i will show you how to change SD card in your Raspberry Pi 3.

Written By: ΛΛKΛRΞT

## TOOLS:

- [Pair of Hands](#) (1)

## PARTS:

- [Raspberry Pi 3](#) (1)

## Step 1 — Raspberry Pi 3 SD Card replacement.

- ★ The Raspberry Pi 3 should look like this closed.

## Step 2 — Top cover removal

- Open the top lid like i have done on the image.
- i The top is marked that you are gonna remove in the next step.

### Step 3 — Cover for GPIO Hider and IO Shield removal

- Now remove the cover for the two covers.
- ❗ It should look like the image.
- ❗ I have marked the covers for the next step.

### Step 4 — IO Shield and GPIO Hider removal

- Remove the two sides.
- ❗ It should look like the image.

## Step 5 — Removal.

- Now we should successfully have removed the case.
- i* Notice that the side shown on the first image is the one that we are interested in.
- i* When we have flipped the Pi 3 over we can remove the SD card.

To reassemble your device, follow these instructions in reverse order.
